THE DAILY NEWS.

Newport:

FRIDAY, JANUARY 28, 1843.

BY O. F. JACKSON, 97-THAMES ST.

Advertisers will please bear in mind that the circulation of the DAILY NEWS is more than DOUBLE that of the Daily Herald, and greater than the combined circulation of the Daily and Weekly Herald. As one proof of this fact, the list of Letters remaining in the Post-Office is advertised in the NEWS, as BY LAW REQUIRED.

Adversity.—In all ages of the world, and among every nation, Adversity has been found, by the fullest experience, to be the correct, and best eradicable in which the human heart is tried; affliction is the fire which burns out the dross of unworthy passion, and purifies the golden attributes of our nature. When we are wafted by prosperous breezes over the gentle undulating ocean of life, with an unclouded sky above us, surrounded by friendly companions, and with bright prospects constantly before us, we soon become callous to all the demands of a spiritual power, and negligent of our manifold duties to each other, in the scenes through which we are passing.—Such is man's nature, for success throws a rainbow of hope over every chasm of anticipated difficulty, on which the heart expects to reach the promised land of ease and affluence. Because our wishes are all gratified, and our desires realized, for the moment, we fondly imagine that such must ever be the case, and that the cup of sorrow will never be pressed to our lips. Man is the creature of habit, which, in time, becomes a second nature; as we have lived, so we expect to continue, ever imbibing the most agreeable draughts from the elixir of luxuriat pleasure. He lives as his existence was the work of chance,

"Content to feed, with pleasures unrefined,
The lowly passions of a lowly mind."

But when adversity, and a long train of afflictions come upon him, they try the more delicate fibres of his heart, and eradicate the evil desires of his nature. Stripping life of its false charms, overthrowing human wisdom, and implanting a sure faith in his soul, Adversity raises him above the mire of selfishness and vanity, to that clearer atmosphere of a well-regulated mode of action, in which he becomes useful to the world, and a blessing to society.

Adversity arouses the dormant energies of our being, and causes us to place a proper reliance on our own strength; it clothes us in the impenetrable armor of virtue, and enables us successfully to resist the evil temptations that everywhere surround us. It calls forth our noblest powers, and brings into full exercise the sublimest faculties of the mind.

Under such circumstances, the greatest of all human efforts have been made; the mind, by an amazing effort, has arisen entirely above itself, and successfully grappled with the most formidable obstacles.

There are abundant instances on record, where minds, that have reposed for years in the stupor of inactivity and pleasurable ease, have at last been aroused to a sense of their power, by some sudden and severe reversal of circumstances, and their Herculean deeds have confounded the world; they have given evidence of power that no one supposed they possessed, and which was as much of a mystery to themselves, as to others. We know not what we can do, until the crisis calls us forth; and then, the greater the emergency, the more extraordinary and brilliant are our efforts; adversity is as necessary and beneficial for the human heart, as a storm of lightning to purify the atmosphere we breathe. And yet, how reluctantly we submit when it comes upon us! What resnings at our severe fate, as it is termed!—We learn, however, by experience, that it is all well and wisely ordered, and that what appears to be the afflictive dispensations of Providence, are but the mysterious means adopted by the Ruler of the Universe, to alienate our hearts from the grossness and materiality of earth, and to engage them in the higher and nobler offices for which they were destined. It comes in a thousand forms, and surrounds us in the most important as well as the mere trivial affairs in which we are engaged.

Hence, when adversity befalls us, as we can sooner or later discern a supernatural power in its direction, it is our duty to submit cheerfully to its operation; and just in proportion as it oppresses us, should we rise above the embarrassments of the occa-

sion, and renew our efforts in the conflict. We are sufficient for the trial, if we but believe it, and in proportion to its exigency, will be our strength. He is a true hero only, who triumphs over every obstacle in this life; and, as his zeal is mighty so will his genius be commensurate with the struggle. A holy hope will cheer him, and a triumphant success reward him; no matter how terrific the storm, or alarming the outward prospect, hope, the sure compass of the well-regulated soul, will direct all his energies, and crown all his sacred aspirations.

"Eternal Hope! when yonder spheres sublimo Peaf'd their first notes to sound the march of Time, Thy joyous youth began—but not to fade,— When all the sister planets have decay'd; When wrapt in fire the realms of ether glow, And Heaven's last thunder shakes the world below; Then, undismay'd, shall o'er the ruins smile, And light thy torch at Nature's funeral pile."

REMARKABLE SUICIDE.—The suicide of Mr. Horace Wells, a dentist, in New York, on Sunday evening last, is most melancholy. Mr. Wells was the same, whose name was connected with the discovery of "ether" for surgical purposes. A few evenings since he was arrested in New York for throwing vitriol upon the dresses of some girls of the town in Broadway. In his cell were found several letters, one addressed to the N. Y. Journal of Commerce, explaining, with apparent truthfulness, the circumstances under which the alleged misdemeanor was committed. The following is an extract:

"I had during the week been in the constant practice of inhaling chloroform for the exhilarating effect produced by it; and on Friday evening last I lost all consciousness before I removed the inhaler from my mouth. How long it remained there I do not know, but on coming out of the stupor, I was exhilarated beyond measure, exceeding anything which I had ever before experienced; and seeing the phial of acid (which had been used a few evenings previous as above described) standing on the mantel, in my delirium I seized it, and rushed into the street and threw it at two females. I may have thrust it at others, but I have no recollection further than this.—The effects of this inhalation continued very much longer than ever before, and did not entirely pass off until some time after my arrest."

By his side were found, on his bed, an empty phial, labelled "chloroform," the contents of which he had doubtless taken, preparatory to taking life. A penknife and razor were also on the bed; with the latter he had lacerated the flesh of the left thigh quite to the bone, severing the femoral artery. In one corner of his cell were found his watch and the following letters:

Sunday evening, 7 o'clock—I again took up my pen, to finish what I have to say.—Great God! has it come to this? Is it not all a dream? Before twelve o'clock this night I am to pay the debt of nature. Yes if I were to go free to-morrow, I could not live and be called a villain. God knows I am not one. Oh, my dear mother, brother, and sister, what can I say to you? My anguish will only allow me to bid you farewell. I die this night, believing that God who knoweth all hearts, will forgive the dreadful act. I shall spend my remaining time in prayer. Oh, what misery I shall bring upon my near relations; and, what still more distresses me, is the fact that my name is familiar to the whole scientific world, as being connected with an important discovery; and now, while I am scarcely able to hold my pen, I must bid all farewell. May God forgive me. Oh! my dear wife and child, whom I leave destitute of the means of support! I would still live and work for you, but I cannot, for were I to live on, I should become a maniac. I feel that I am but little better than one already. The instrument of my destruction was obtained when the officer who had me in charge kindly permitted me to go to my room yesterday." HORACE WELLS.

To Editors:—My last request to Editors is, that they will, while commenting on this unhappy affair, think of my poor wife and child—also my mother, brother and sister, all of whom are numbered among the most respectable members of society.

H. WELLS.

To My Dear Wife:—I feel that I am fast becoming a degraded man, or I would desist from this act. I cannot live and keep my reason, and on this account God will forgive the deed. I can say no more. Farewell.

To Mr. Dwyer:—Dear Sir—When you receive this, I shall be no more. I wish you would take my watch, and present it to my dear wife, together with the trifles I have already given you. Please to see to my burial—let me be interred here in the most secret manner possible. I wish you or Mr. Barber would go immediately to Hartford, and reveal this misfortune to my wife in the most unobjectionable manner possible, and attend to the business we spoke of this morning, when you little thought of this occurrence.

Yours, H. WELLS.

—The following is Gen. Scott's order, unconditionally pardoning Gen. Anaya, ex-president of Mexico. It will be recollect that he was taken at the battle of Churubusco, fighting bravely.

HEADQUARTERS OF THE ARMY,
City of Mexico, Sept 22.
Gen. D. Pedro Maria Anaya, of the Mexican army, and prisoner of war to the American army, in consideration of his high character as an ex-president of the Mexican republic, and of his being at present a member of the National Congress, is released from all obligations as a prisoner without equivalent and without the pledge of his parole.

(Signed) WINFIELD SCOTT.

ARRIVAL OF DISPATCHES.—Capt. Kerr, of the 2d Dragoons, arrived at Washington on Wednesday morning, bringing dispatches which will probably throw light on the peace rumors that have prevailed since Monday. The N. Y. Herald has a dispatch from Washington, stating that a letter had been received from Gen. Twiggs, asserting that a bearer of dispatches had arrived at Vera Cruz with a treaty. Add to all this the important rumor from Mexico that Scott has taken upon himself authority to sign a treaty of peace. There was great excitement in Washington in consequence of these reports, and the arrival of the bearer of dispatches.

LATER FROM MEXICO.—The steamer *Orleus* has arrived, at N. O. bringing dates from Vera Cruz to the 14th inst.

The loss by the attack upon Col. Miles' train falls principally upon merchants—one English house losing fifty-four thousand dollars.

The French and Spanish merchants recovered their goods by paying for them smartly.

Gen. Scott has issued orders assessing the States of Mexico, now, or to be occupied by our troops.

THE GULF SQUADRON.—Some sensation has been occasioned by the reply of the officers of the Gulf Squadron to the Circular of the Commodore asking information.—The conduct of the Post Captain at the Batteries of Vera Cruz is said to have been un-officer-like and un-becoming.

FINANCIAL.—It is estimated by those who keep "the run" of such things, that the whole amount of silver and gold shipped to France and England, beginning with September last, is from ten to eleven millions of dollars. The outward current seems now to have ceased, except for the passing off of things already started.

—The family carriage presented by the young men of Baltimore to the late Gen. Harrison, and which cost \$2500, is advertised for sale at Frankfort, Ky.

—The trial of Dr. Cooledge, for the alleged murder of Edward Matthews, at Waterville, Me., has been postponed to the first Tuesday in March next.

—The first portion of Col. Fremont's defense occupies seven columns in the National Intelligencer. It charges Gen. Kearney with bearing false witness.

—The steamer *Yallabusha*, from Red River to New Orleans, was destroyed by fire on Tuesday the 18th inst, by which accident it is supposed forty lives were lost.

A LARGE DIVIDEND.—The Marine Insurance Company of this city have declared a dividend of *thirty-five per cent.* to their customers, on the mutual principle, besides reserving a dividend of *ten per cent.* to their stockholders.—N. Y. Journal of Com.

—The Newport News has offered the Newport Herald \$100, if the latter will prove what it has declared regarding its circulation.—Boston Chronotype.

Yes, we have, and will pay the amount at any moment the Herald proves its own assertion.

—The appeal of Mrs. Connor, who claims to be the wife of Gen. Van Ness, has been dismissed by the Supreme Court.

—Mr. Walker, in a letter to the Mississippi Convention, expresses his intention of resigning after March, 1849.

—The Democratic Caucus adopted a resolution to hold a National Convention in Baltimore on the 4th Monday in May.

LICOR STORES IN NEW YORK.—The Express states that there are no less than 2900 liquor stores open in that city, every day Sunday not excepted.

—Mr. Clay is to have a public dinner given to him in Washington.

—No New York Mail received yesterday.

General Assembly—Fourth Session.

SENATE—Wednesday.—Petition of Cook Barren for sale of real estate. Concurred.

Bill on petition of N. A. Brown, relative to violation of the Sabbath. Read and referred to Committee on Judiciary.

A communication was received from the House on the petition of Dr. Richmond, &c, relative to the State debt, with a vote referring the same to a Committee of three citizens of this State, to examine and report the facts and their opinion.

Messrs. R. W. Greene, Collins and Hoxie were excused from voting.

Non-concurred—by the following vote: ayes 7; noes 18.

Vote of thanks to Directors of Butler Hospital. Read and concurred.

Adjourned.

House.—The petition of Ezekiel Fowler et al, for a Railroad Charter having been assigned as the order of the day, was taken up.

Remonstrances against the petitions were presented from citizens of Providence and vicinity; from G. Whitman et al, of Cenerville; from Stephen Waterman et al, and from Thomas Wilbur of Warwick; from Peleg Wilbur et al, of Coventry, and from J. S. Thornton et al, of Pawtuxet.

Petitions in aid of the above petition were presented from Ira P. Evans et al, of Glastonbury; from Daniel S. Whipple of Burnsville; from Amos D. Lockwood et al, of Slatesville; from Dexter Ballou et al, of Woonsocket; from Jesse S. Tourtellot et al, of Pawtucket, and from Otis Mason et al, of Cumberland.

Christopher Robinson, Esq., counsel for the petitioners, addressed the House in favor of the petition. Adjourned.

Afternoon.

House.—The order of the day was resumed, viz:—the Air Line Railroad, on which a long debate was had and Mr. Ames occupied the floor until the adjournment.

—It is stated that the steamship *Sarah Sande* will probably be withdrawn from the American trade, on account of the failure of Messrs. Sands, of Liverpool.

PUFFING.—An inventor of water proof shoes says that Matheiselah lived to be nearly a thousand years old, and might have lived five hundred years more just as well as not, if he hadn't foolishly got his feet wet.

—An old bachelor who edits a paper somewhere in the Western country puts Melancholy Accidents over the head of marriages.

TAKING IT EASILY.—The following paragraph, from the Wisconsin Republican, is a proof of how much greater importance is attached at the West, to domestic than to public duties. That paper says:

"As we are about going to house keeping and have many necessary arrangements to complete, our paper will not be issued next weekend possibly not for a fortnight to come.

—Never go about in the night time with your fists in your pockets. No man has a right to carry concealed weapons.

—The following notice appeared on the west end of a country meeting house:—Any person sticking bills against the church will be prosecuted according to law, or any other nuisance.

COLD FEET are an evidence that the blood is encumbered with morbid humors, which not only render the circulation sluggish and unequal, but prevent a proper supply of the vital fluid to the extremities. Hence coldness of the hands and feet, accompanied with headache, giddiness, and many other unpleasant complaints.

WRIGHT'S INDIAN VEGETABLE PILLS are one of the best preventives in the world against Cold Feet, because they not only cleanse the blood from those impurities which are the cause, but they impart an energy to the circulation which carries it with vigor to every part of the system.

BEWARE OF SUGAR COATED COUNTERFEITS.—Remember that the original and only genuine Indian Vegetable Pills have the written signature of William Wright on the top label of each box.

The genuine are for sale by C. G. C. HAZARD, No. 89 Thanes-st., Sole Agent for Newport; and by Nathan Dennis, Portsmouth; Seabury & Albany, Tiverton Bridge; Arnold Smith, Tiverton Four Corners; H. F. Brown, Little Compton; W. A. Brown, Adamsville. Wholesale at the New England Office, 195, Tremont-st., Boston.

—One of the most important effects of the recent progress of Science is the alliance of Chemistry with Physiology. By which a new and unexpected light has been thrown upon the vital processes of animals. For this we are indebted chiefly to the German and French chemists. We have now a clear understanding of the different action of aliments, poisons, and remedial agents, and the long derided theory of the blood being the portion of the system upon which the latter should act, is now a demonstrated truth.

The great object, therefore, is to ascertain what remedy will act most directly upon the constituents of the blood when in the act of combination.

Experience, observation, and a cloud of witnesses, establish the fact that SAND'S SARSAPARILLA, is at the very head of this class. Cancer, scrofula, salt rheum, erysipelas, leprosy, ringworm, mercurial diseases, suppuration of the glands, swellings of the joints, and all the diseases of the muscles and tissues, together with general debility of the system, yield to it a fulfilling purifier of the blood—for the blood is the channel through which disease finds its way to the various organs of the body.

Prepared and sold by A. B. & D. SANDS, Druggists, 100 Fulton st. N. Y.

Sold also by Dr. R. H. Hazard and R. J. Taylor, Newport, by J. Russell, Fall River, by C. Dyer, For sale by R. J. TAYLOR.

The great and only Successful Remedy for the cure of Consumption,
S Dr. E. W. Vondersmith's INDIAN COUGH BALM and LUNG BALSAM.

Disease of the Lungs and Throat cured.

White Plains, April 20, 1817.
This is to certify that I have been afflicted for five years with a cough, pain in the chest, night sweats, difficulty in breathing, etc., and I also expectorated a large quantity of frothy matter and blood, from which I was reduced to a perfect skeleton, my throat was very much ulcerated.

had lunar catarrh applied to my throat twice a week, but received no benefit; I have used one hundred different kinds of Patent Medicines, recommended by my friends, but all to no purpose. A friend of mine, Mr. Willett, whose lungs had been affected for two years past, was cured by Dr. Vondersmith's Medicine. He insisted upon my trying Dr. V., and I did so. After I had used his medicine 15 days, I expectorated large quantities of yellow fluid matter, my chest expanded, and my difficulty in breathing subsided. I persevered with his medicine, and the result has been, I am perfectly cured of all my sickness. I recommend every consumptive to try Dr. V.'s medicine, I am confident it will cure you. Your sincere friend,
EDWARD C. THOMPSON.

Swear before me this 21st day of April, 1817.

Inflammation of the Lungs.

New York, June 19, 1817.

Dr. Vondersmith:—I have been subject to a cough, pain in the chest, difficulty of breathing, &c., for many years past. About four months ago I took a severe cold, which settled on my lungs. I was unable to attend to my business during the day. I would have dreadful coughing fits, that I thought it was impossible for me to survive unless I could get relief. The excessive night sweats, had reduced my whole body to a skeleton. I expectorated white frothy mucus, in fact, should I give the full particulars of my case, it would be almost incredible. I was recommended to try Dr. Vondersmith's Indian Cough Balm and Lung Balsam. I consented; when I did used it about one week, my cough decreased considerably, which gave me great hopes. I continued with the medicine according to directions, and the result has been that I am restored to health, a blessing that I have not enjoyed for years, until the present. I sincerely believe had I not made use of Dr. Vondersmith's invaluable medicine, that I would be moulder in the silent grave. Therefore I believe that I am doing nothing but what is just, in stating the above facts, so that you may show it to all the afflicted who may call upon you to administer to them. I shall be pleased at any time to converse with the afflicted who call upon me. Your grateful patient and friend,

Consumption.

Staten Island, June 10, 1817.
Dear Sir—I take great pleasure in giving you my certificate, last December I was attacked with a severe cough, pain in my left side, loss of appetite, and continual raising of white and yellow mucus. Some days I rinsed a half-pint of mucus, streaked with blood. I have been under the treatment of a dozen physicians, I was recommended by Dr. Mitchell of Philadelphia, to use a Breathing tub, I purchased one, only made use of it one week, it was the cause of bringing on a hemorrhage of the lungs, which reduced me so much that I was unable to sit up, my voice was entirely destroyed, it was difficult for persons to understand me. I saw Dr. Vondersmith's Medicine recommended very strongly by a patient whom he had cured. I sent for half a dozen bottles, I received great benefit from that, which induced me to purchase a dozen bottles, I took according to the directions, and it cured me perfectly sound.

Yours, &c., ROBERT WILLSEY.

If Rev. B. HIBBRAD'S Vegetable and Anti-Bilious FAMILY PILLS are not found to be the most convenient, the best physic you ever tried, and fully equal to any recommendation of them,—you do not find that one of these pills does more good than four to six of any other kind, even. My agent stands ready to receive the empty boxes and refund the money.

These Pills are recommended as being without an equal in all Bilious attacks, affections of the Liver, the Lungs, Stomach, or Bowels, caused by taking cold, or obstructed perspiration. They carry off the bile, cleanse the stomach and bowels, and re-open the closed pores of the body, thereby letting out the insensible perspiration through its accustomed channels, and relieving at once the internal organs. Also in old chronic affections, as Dyspepsia, Sick Headache, Rheumatism, &c.—Mind the Directions, which go with each box.

Every agent has circulars of these Pills to give away.

Half a Pill is the usual dose, though some require One Pill, or even more. Children of one year and over, one quarter of a pill, of 7 years and over, half a pill. These Pill are purely VEG. STAB. and may be taken under all circumstances, without regard to drinks or diet.

The American Improved Vegetable Medicine.

SAFE, CHEAP AND EFFECTIVE.

This medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astonishing sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple aid to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties.

During the last twenty years it has worked its way into extensive use, *actually upon its own merits*.

by commendation from individual to individual.

not having been advertised for more than twelve years till within the past few months—see occasionally in a journal of which the present proprietor is Editor.

The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed.

The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and *knows it to be valuable in most of the complaints incident to the human system.*

But a long or extravagant commendation is not designed or needed here. Ten thousand mere *as-sertions* in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.
